MEXICANS MUCH PLEASED AT PLAN

Wilson Strikes Blow at German Propagandists in Speech to Editors.

CEMENT FRIENDLY FEELING

Would Amplify Monroe Doctrine Into Pan-American Treaty.

(By David Lawrence.)
(Copyright, 1918, by New York Evening Post Company.)

Washington, June 11.—President Wilson, by his speech to the Mexican editors who are visiting this country, unquestionably has struck a body blow at the German propaganda in Mexico.

No utterance from the lips of the president has excited such cordial or friendly than that of last Friday. The text has not been released for publication in the United States, owing to the president's stipulation that it was intended for prior publication and distribution throughout Mexico.

Judging by the enthusiasm of the Mexican newspaper men who heard the address, it will go down in Mexican history as the most notable speech of friendship ever made by an American president to our neighboring republic.

Coming in the midst of a war for the very existence of itself, coming at a time when Germany is moving by every device and scheme to make war at America's back door, so as to divert American troops and tonnage from the pressing task in France, Mr. Wilson's frank statement will do much to remove the German propaganda which the German propagandist has found so fruitful for his purpose.

Not Usually Enthusiastic.

I have talked with several of the Mexican editors since their visit to the White House, and it is an uncommon thing to find Mexicans really enthusiastic about the United States because of the bullying attitude which some of our people have so often adopted toward an obviously weaker country, but the delegation without exception could hardly choose superlatives strong enough to express their feelings.

In the first place, the thing that has rankled in the Mexican breast for many generations, and which indeed has been at the bottom of all the Latin-American feeling in Mexico, was the war between the United States and Mexico in 1848.

Many American historians have sought since then to undo some of the wrongs of that war, but it remained for President Wilson, referring to that conflict, to say that which emphasized indeed that the United States never will take advantage of her neighbor for conquest or any other purpose.

Mr. Wilson minced no words, I am told, moreover, in giving to Mexico the same assurance which two years ago he sought to convey to all Latin-American, an assurance of political independence to be guaranteed by solemn covenant. The Monroe doctrine has been much misunderstood in Latin-America, and, however much it seemed to be a protection for Pan-American against European aggression, there is nothing in it which specifically protects the Central and South American republics from the aggression of the United States or any other country in this hemisphere.

To most Americans it might seem superfluous to make such a declaration, but imperialistic statements from some of our leaders from time to time, the shaking of the big stick at Latin-American countries and the widespread feeling in Latin-America that the United States never did justice to Colombia after her separation from Panama have had a distinct effect.

Latin-America in large part does not have the same trust in the motives of the United States as we ourselves or even the European nations do. Therefore every evidence of unselfishness that is offered by us serves to increase the confidence of our neighbor in us.

Amplify Monroe Doctrine.

That is why President Wilson's expression in his speech of last Friday of his willingness to amplify the Monroe doctrine into a Pan-American agreement which would protect every nation in this hemisphere against every other nation in it by a compact of treaty is particularly happy.

The president made the same statement two years ago, but it never was properly explained or pushed. Being said at a time when the United States had built a larger military machine than has ever been seen in this hemisphere and when so many doubts are being raised by irresponsible persons as to the ultimate uses of this power after the war, Mr. Wilson's outspoken promise is opportune and undoubtedly will produce a healthful effect not merely in Mexico, but throughout Central and South America.

It is when a nation is in a position by reason of its military power to enforce its will on another that an expression of unselfishness counts most, and the Mexican editors who are traveling through the United States will see many an evidence of American power.

They will see our war plants, our aviation fields, our shipyards, our military camps and our battle ships. They will mingle with our people in several cities where chambers of commerce already have arranged a program of entertainment and sightseeing.

ALADDIN'S MAGIC HAS NOTHING ON THIS OHIO WIZARD

Discovers drug which loosens sore, touchy corns so they lift out

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told to use a drug called freezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.

This new ether drug is the recent discovery of a noted Cincinnati chemist. It is a sticky substance which dries the moment it is applied and is said to simply shrivel the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.

You are further warned that cutting at a corn is a suicidal habit.—(Adv.)

NOTED PRISONER LEAVES PRISON

Pete Shipp Leads Daring Escape From the State Penitentiary.

LEAVE PRISON ON TRAIN

Two Other Long-Termers Get Away—Holds Revolver at Head of Engineer.

(Special to The News.)

Nashville, June 11.—Three long-termers, Pete Shipp, Bush Campbell and Henry Roberts, rode out of the yards of the state prison here on a freight train about noon Tuesday and effected a spectacular getaway while Shipp, dressed in civilian clothes, flashed a big revolver in the face of the engineer and gave orders. Once out of sight of the prison, they hurriedly left the train.

The train was being fired up for a trip to the West Nashville chemical factory when the convicts, all of whom are desperate men, clamored aboard.

Shipp led the way and was confronting the engineer with a big revolver in his hand when first noticed by the trainmen.

A searching party of twenty men is scouring West Nashville. Shipp and Roberts are life-termers, the former having been sent up from Hamilton county and Roberts from Campbell. Both are murderers. Campbell was sent up from Johnson City for felonious assault and was serving a fifteen-year term.

Pete Shipp, whose daring escape from the state prison is recounted in the above special, was convicted in the criminal court of Hamilton county four years ago on the charge of murdering C. A. Bechtel, an aged merchant of East Chattanooga, for the purpose of robbery.

Shipp was convicted of murder in the first degree and sentenced to be hanged, but the sentence was later commuted to life imprisonment by Gov. Eyer on the grounds of mental unbalance.

Shipp and his pal, Charles Dodson, made their escape and were sought all over the country and were finally captured at Oakdale.

The state's evidence and was given his liberty.

LOCAL BOYS LAND SAFELY IN FRANCE

A cablegram has been received in Nashville by his family announcing the safe arrival in France of Col. Luke Lea, commander of the 114th regiment fielded artillery.

This regiment was located at Camp Sevier, Greenville, S. C., and left there several weeks ago for a port of embarkation and its safe arrival in France will be of general interest in Chattanooga, as many boys from here were numbered in its muster roll.

BABY FALLS FROM WINDOW AND DIES OF INJURIES

Injuries received by Emma Sue Mabry, 6-months-old daughter of Mabry and Mrs. J. O. Mabry, of 3900 Avenue M, East Lake, when she fell from a second-story window of the home Monday night about 8:30, resulted in her death at Erlanger hospital a short time later. Her skull was fractured. The little one was sleeping on a bed by the window and rolled through a hole in the screen. Her parents were asleep in the room, and aroused by the fall of their little darling, hurriedly summoned a woman's ambulance which rushed her to the hospital. She died about 9:30. The body was removed to the home Monday night. Funeral services are being held from the residence Tuesday afternoon at 4. The interment will take place in Forest Hills cemetery.

RED CROSS STANDS SECURITY IN DIVORCE CASE

A divorce suit, which was the first of its kind ever filed in that the American Red Cross stands as security in the costs of the cause, was entered in the chancery court at 2:30 o'clock Tuesday afternoon by Thomas Wilcox, a soldier, now sojourning at a camp in California, against his wife, Margaret Wilcox, a resident of Hamilton county. Another unique feature of the suit was that the husband gives his occupation in the army as a teamster and names as co-respondent Louis Wagonmiller. The husband charges his wife with adultery with Wagonmiller, whom he also claims is a resident of this county. The suit was filed through Finlay, Coffey & Campbell, and the American Red Cross by J. M. Graham, acting field marshal, are securities for the cause.

Grand Opera Night at Redpath Chautauqua

Tuesday afternoon's offering at the Redpath chautauqua tent on Chamberlain field combines both a musical and lecture program. Milen Lusk, violinist, and Florence Schubert, pianist, render the musical feature of the day, followed by George H. Bradford, chancellor of the University of Oklahoma, whose subject is "America's Part in Rebuilding the World." The chancellor is an eloquent speaker and has his subject well in hand.

Tuesday night is to be grand opera night at the chautauqua. Miss Margery Maxwell Grand Opera company holding the boards.

Wednesday afternoon and evening as a prelude to the attractions, Sam Galbreath, a Scotch entertainer, will be heard in concert. In the afternoon Mrs. Christine Frederick, who is an authority on home economics, will lecture on "Keeping House for Uncle Sam."

At night Wednesday Sir John Foster Frazier, who is one of the biggest features of the week, will be heard.

Famous in a Day For Her Beautiful Complexion, Oatmeal Combination Does It

A Free Prescription Does Its Work Overnight. You Can Prepare It at Your Home.

New York: It is my own discovery and it takes just one night to get such marvelous results, says Mae Edna Wilder, when her friends ask her about her wonderful complexion and the improved appearance of her hands and arms. You can do the same thing if you follow my advice she says: I feel it my duty to tell every girl and woman what this wonderful prescription did for me. Just think of it. All this change in a single night. I never tire of telling others just what brought about such remarkable results. Here is the identical prescription that removed every defect from my face, neck, hands and arms. Until you try it you can form no idea of the marvelous change it makes in just one application. The prescription which you can prepare at your own home is as follows: Go to any grocery and get ten cents worth of ordinary oatmeal, and from any drug store a bottle of dermivul. Prepare the oatmeal as directed in every package of dermivul and apply night and morning. The first application will astonish you. It makes the skin appear transparent, smooth and

velvety. I especially recommend it for freckles, tan, sun spots, coarse pores, rough skin, ruddiness, wrinkles, and, in fact, every blemish the face, hands and arms are heirs to. If your neck or chest is discolored from exposure, apply this combination there and the objectionable defect will disappear as if by magic. It is absolutely harmless and will not produce or stimulate a growth of hair. No matter how rough and ungainly the hands and arms, or what abuses they have had through hard work and exposure to sun and wind, this oatmeal-dermivul combination will work a wonderful transformation in 12 hours at the most. Thousands who have used it have had the same results I have had.

Note: To get the best effect be sure to follow the complete directions contained in every package of dermivul. You have only to get dermivul and oatmeal. You need nothing else and it is so simple that anyone can use it; and is so inexpensive that any girl or woman can afford it. The manufacturers and druggists guarantee that there will be a noticeable improvement after the first application or they will refund the money. It is sold in this city under a money refund guarantee by all department stores and druggists, including the Live and Let Live, Morrisons' and R. J. Miller stores.—(Adv.)

MAN AND BRUIN FAILED TO BE IN SAME LODGE

(International News Service.)

Thomas, Ga.—When Russ Taylor, a farmer living near here, went out recently to feed his stock he was met by a large black bear. Seeing Taylor, the bear stood up on its hind legs and waved its paws as if in salutation. Bruin and Taylor evidently did not belong to the same lodge
